80 To Graduate from Antioch High School On Thursday, June 2

Fr. Hood to Be Baccalaureate Speaker on Sunday, May 29th

A class of 80 members, the largest ever to be graduated from Antioch High school will receive diplomas in commencement exercises to be held at 8 p. m. Thursday, June 2, at the large gymnasium of the school. The address will be delivered by Dr. Beryl Orris, Chicago psychologist, and lecturer.

Dr. Calvin Midgley of the Church of Jesus Christ of Latter Day Saints will give the invocation. Music will be supplied by the a capella choir under the direction of Louis Chenette.

The baccalaureate service will be held in the school auditorium at 8 p. m., Sunday, May 29.

The Rev. Edmond Hood, rector of St. Ignatius' Episcopal church, will deliver the sermon. The invocation and benediction will be given by the Rev. Kenneth Plummer of the Lake Villa Methodist church. Director Chenette will direct the girls' chorus in four selections.

Both programs are expected to attract a large attendance. They bring to a close a highly successful school year and a year-end of senior activities.

Special Solos to Add To Band Concert at High School Saturday

Two accordion solos were added to the already really outstanding program to be given by the Antioch band at Antioch Township High School Saturday evening.

The program starting at 8 p. m. will include an accordion solo by Jack Heilgenthal in which he will give his version of "Tiger in the Hood."

Miss Elaine Brady will play the accordion solo, "Sharp Shooters March." Both she and Heilgenthal are students of Marek's Music studio.

Another special number—a trumpet trio by W. V. Lahti, M. Jones, and John Hammond, will bear the title, "Three Cardinals."

The program prepared by Bandmaster Louis Chenette ranged from a symphony by Tschalkowsky to a medley of marches.

The performance should draw a good audience both on the basis of its real entertainment and the encouragement the proceeds will give in producing the summer outdoor concerts.

The band will make its first outdoor appearance following the Memorial Day program, and will give evening concerts every other week on Tuesdays thereafter.

The band is also planning a Sunday afternoon sacred concert in which church choirs will be asked to participate.

Six to Graduate from Grass Lake School on Friday Night, May 27

Six pupils will be graduated from the Grass Lake School at 8 p. m. May 27. Ed Cooney, assistant director of the Isaak Walton League in Chicago and former manager of the Conservation School at Lake Villa, will be the speaker. He is a resident of the district.

The Rev. L. H. Messersmith of Millburn will give the invocation and benediction.

A reception for the graduates will follow the program. The graduates are Mary Kay Duncan, Kathleen Burke, Arlene Rozak, Raymond Terni, Jeanne Wade, and Kenneth Mazzucca.

Mrs. Eva Atwell, 69, Dies Wednesday After A Lingering Illness

Mrs. Eva Atwell, 69, Lake Villa, died Wednesday, May 18 at 2:45 a. m. at the home of her sister, Mrs. Frank Richards of a lingering illness.

She was born June 21, 1885 at Lake Villa and lived there all her life. Married to Arthur Atwell Feb. 10, 1909 at Rockford.

Relatives surviving are her husband, Arthur, one son, Lloyd of Lake Villa, one grandson, Lloyd, Jr., two brothers, Horace Culver of Lake Villa and Floyd Culver of Bloomington, Mich., one sister, Mrs. Blanche Richards of Lake Villa.

Funeral services will be held at 2 p. m. Friday at the Strang Funeral home in Antioch. The Rev. L. H. Messersmith of Millburn Congregational church officiating. Interment will be in Fox Lake cemetery.

Friends may call after 3 p. m. Thursday.

Teachers Give Program Before Antioch P.T.A.

The Parent-Teacher Association of Antioch's grade school was entertained Monday evening by a travelogue of a trip through Mexico presented through the use of slides by Miss Laura Pedley, one of the teachers.

Harrison Brown, another teacher, showed a film of playgrounds in the state of Illinois.

The kindergarten mothers served refreshments.

Oliver Hughes to Get Rural Carrier Job Back On Washington Orders

Sen. Dirksen Says He Will Return to Work June 1; Off Duty 5 Months

Oliver Hughes of Lake Catherine who was discharged from his job as rural mail carrier out of Antioch on January 12 because he wrote a letter condemning postal officials in Washington, will be reinstated, both he and Postmaster Roy Kufalk have been informed.

A letter to Hughes from Senator Everett M. Dirksen said that Hughes would be returned to his job June 1.

Hughes told the Antioch News that he hates to quit his job as janitor at the Antioch Grade school where he has been employed for a month because he likes the work, but he has 27 years of service with the postal department and will be able to retire in about three years if he chooses.

After Hughes' release from his job four months ago, friends took steps to secure his return, and Republican leaders of Antioch township enlisted the aid of Senator Dirksen and Rep. Marguerite Stitt Church. It was through their efforts that the postal authorities were induced to reconsider their action.

A message to Postmaster Kufalk said that the order reinstating Hughes would come out of the regional office at Chicago where the word of dismissal also was issued.

Peterson on Rte. 3 who like their present carrier, will also be glad to see their old carrier back on the job. "Indications are that Olle will hereafter leave to others any criticism that the brass in Washington might deserve."

Formal Opening Friday For Klass Men's Store

The Klass Men's Store will have its formal opening tomorrow (Friday) under new ownership and management, but under the same name as when the business was started.

Lawrence Olsen recently became the owner and John Skalak is the manager.

The public is invited to visit the store and view the furnishings and stock.

Carnation corsages will be given to the ladies, lollipops to the children and cigars or candy to the men.

Twenty-two gifts will be awarded. The most valuable will be a Remington Rand Deluxe razor, a \$10 Ronson lighter, and \$5 in jewelry. Six pairs of \$2.95 argyle hose will be next among the gifts and the 13 pairs of unsized hose.

Fair Association Gets State Aid for Grounds Rtes. 120-45 Grayslake

The Lake County Fair will move closer to Antioch within the next year or two at a permanent site east of Grayslake on Rte. 120.

The State Department of Agriculture recently approved the Lake County Fair Association's application for \$79,850.45 of which a portion will be used to erect buildings on the site which was purchased by the Farm Bureau for \$30,000.

The fair association has a long term lease on the site from the Farm Bureau which in turn will use as headquarters buildings erected by the association.

This year the fair still will be held at Wauconda, and plans are being made to make it a good one.

4-H Photography Meeting May 19

The second in a series of three meetings for 4-H club members enrolled in the photography project will be held on Thursday night, May 19, at the Farm Bureau hall in Grayslake, starting at 7:30 p. m. The purpose of the 4-H photography project is to acquaint 4-H members with some of the basic principles of taking better pictures. All 4-H Club members interested in enrolling in the photography project are urged to be present at the May 19 meeting.

Legion, V. F. W. Tell Plans for Program of Antioch Memorial Day

Maj. Peter Mawn, Ft. Sheridan, Will Be Speaker After Big Parade

Antioch can look forward to one of its best Memorial Day services if weather is satisfactory.

Plans are already completed for the parade and program that will follow, according to Edward Jahneke of the American Legion who is serving as parade marshal.

Major Peter R. Mawn, post exchange officer at Fort Sheridan will be the main speaker on a subject yet to be announced.

Assembly for the parade will be at 1:30 p. m. Monday, May 30, at the Antioch Township High school. The parade will start at 2 p. m. and move up Main st. to the village park near the water tower where the program will take place.

After the program the Antioch band will give a concert on the platform from which the Memorial service will be given. The band will not participate in the parade this year, but both it and the grade school band will be in line next year after their marching training is completed.

The Antioch High school band will be the only musical organization in the parade this year.

The line of march will be in the following order:

Veterans of Foreign Wars, American Legion right guide, colors and guard.

Firing squad of V.F.W. and Legion and V.F.W. Commanders, Marching Legionnaires and V. F. W.

Legion and V.F.W. Auxiliary colors.

Legion and V.F.W. Auxiliary Presidents.

Marching V.F.W. and Legion Auxiliary Members.

Gold Star Mothers in car.

Antioch Township High School Band.

Mayor James McMillen's car.

Antioch fire department.

Boy Scout Troop 91.

Boy Scout Troop 92.

Channel Lake Boy Scouts.

Grass Lake Boy Scouts.

Antioch Girl Scouts.

Channel Lake Girl Scouts.

Grass Lake Girl Scouts.

Brownies.

Dens 1 to 9 in order.

Antioch Acorns, 4-H Club.

Antioch Rescue Squad.

Lions Club car.

Chamber of Commerce car.

Order of Eastern Star car.

Order of Rainbow for Girls.

Ancient Free & Accepted Masons.

Loyal Order of Moose.

Knights of Columbus.

Holy Name Society.

There will be special marching instructions under each unit number.

He was mowing his lawn at the time he was stricken. The Antioch Rescue squad applied oxygen but was unable to revive him.

Mr. Neumann was born Sept. 4, 1886 at Varjos, Hungary, and until his retirement was employed as a barber.

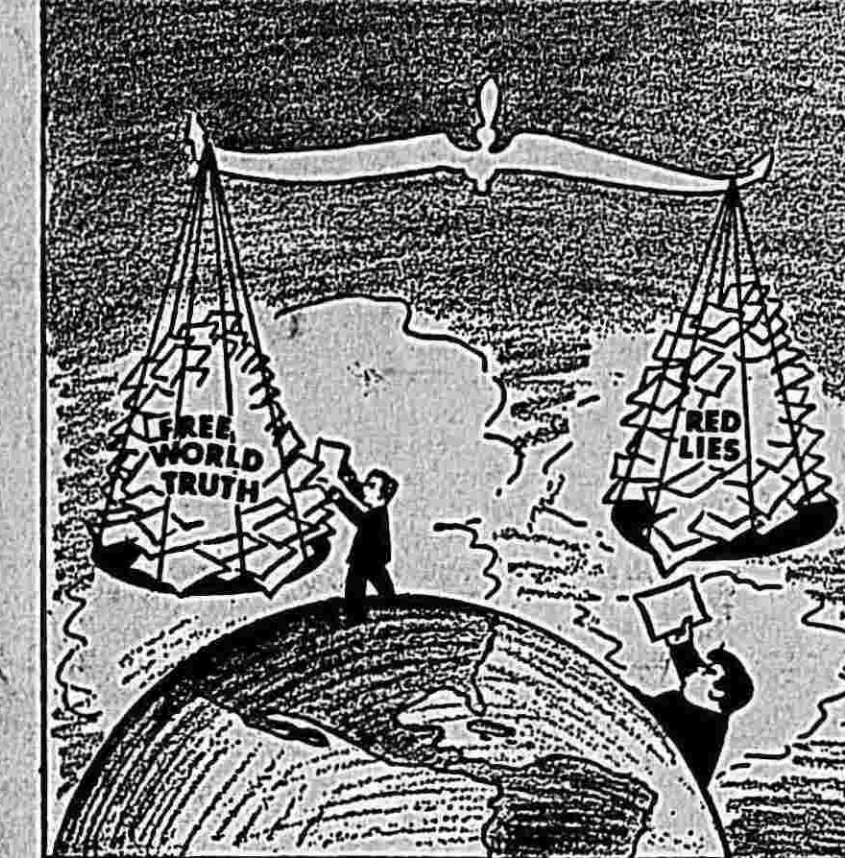

Surviving are the widow, Alice, a son and a daughter.

The funeral service was held today at the funeral home at 5501 N. Ashland ave. in Chicago.

Survivors are the widow, Alice, a son and a daughter.

The Fate of the World hangs in Balance

Albert W. Sorensen, Petite Lake Resident, Finds \$40,000 in Waukegan; Seeks Legal Owner

Albert W. Sorensen, 34, of Petite Lake, had an experience recently that most persons have only in the land of dreams—he found a cache of \$40,000 in Waukegan.

He found the money completely by accident and has begun legal action to obtain legal title to the fortune.

"First, I was scared to death. Then I was overjoyed; then bewildered, but thank God, I had the good sense to do the right thing," he said.

Sorensen, a construction worker, employed Atty. Ted Larson to take the necessary legal steps to retain the money, which was placed in a bank vault awaiting a search for the owner.

Atty. Larson, acting for Sorensen, filed an affidavit with County Clerk Garfield R. Leaf as the first step toward getting the money. He must publish notices in public places as required by law and at the end of a year if no valid claim has been made, he will get to keep the money.

States Atty. Robert C. Nelson to whom the money was first given for keeping said Sorensen's decision to seek the owner was "the most honorable thing I ever heard of."

He added that it has done more than anything in his life to restore his faith in human nature.

Nelson said the money had been hidden a substantial period of time, but refused to disclose the exact location for fear of false claims.

Atty. Larson said that already three Chicago residents have made claims all of which are false. They were merely guesses in hope of getting the money.

There is much speculation that the money is the outcome of a bank theft and the thief doesn't want to reveal himself.

By May 2, 1956 Sorensen will know whether the money is his and how much he will have to give Uncle Sam if the latter should decide it is income.

Sequoits Beat Bisons There 18-7; Lose to Glenbrook Here 11-7

The Antioch Sequoits turned with a vengeance on the Bensenville Bisons there Tuesday winning 18 to 7.

The local boys reversed their usual procedure this time. In earlier games they ran up what appeared to be a comfortable score only to lose in the final innings.

It was Bensenville who made its best showing at the beginning, knocking Clarke out of the box for a total of five scores in the first frame. Thereafter Mike Haviland held them to two runs.

After scoring two in the second and one in the third the Sequoits began connecting with Busse's offerings and he was relieved in the fourth by Straud, who likewise went to the showers in the sixth, and Mick who succeeded him fared no better. The Bisons, it must be said, gave their pitchers poor support, chalking up 13 errors.

Gerry Meyer was the hitting demon for Antioch. He clouted a home run, triple and double, driving in five runs. Harry Lindgren also connected for a home run, while Warren Brownlee hit a three-bagger. Besides Meyer, Haviland, Parker, and McMillen hit for two bases.

The summary: Antioch 0 2 1 4 1 4 6—18 15 6 Bensenville 5 1 1 0 0 0 8—7 5 13 Catchers were Meyer and Tews.

Glenbrook 11, Antioch 7.

The Sequoits led the Glenbrook Spartans 5 to 3 up to the sixth inning in Friday's game, but wildness on the part of the Antioch pitcher, Mike Haviland who gave three w's, set the stage for a Glenbrook rally which netted eight scores in the last two innings while Antioch was adding but two.

Haviland got three hits which brought him to the top of the Conference batting column with a .579 average. Also adding to the Antioch hits in this game were two by Warren Brownlee whose batting average is above the 300 mark, and two by James McMillen.

The last home game of the season will be played tomorrow with Palatine and the Sequoits will play their final game Tuesday at Elmhurst.

Grayslake is leading the conference as the result of a 13-2 victory over Grant at Ingleside Tuesday. The two teams have been tied.

Channel Lake School Graduation Wednesday

The Channel Lake Grade school commencement will be held at 8 p. m. Wednesday, May 25, according to Principal Donald Behling.

Fr. Edmond Hood, rector of St. Ignatius' church in Antioch will give the address.

Graduates include Joan Putnam, Edward James Portalski, Carl Phillips, Marjorie Nowicki, William Yancey, Jean Rudolph, Kathleen Sershon, Robert Reed, John Hucker, Karen Keulman, Phillip Case, Leonard Hochleuter, and William Beck.

Nominate Outstanding Citizen Sequoit Post 4551, Veterans of Foreign Wars, has voted to endorse Mrs. Lela Whitney of Chicago as the "Outstanding Citizen of the Year."

Mrs. Whitney is the producer of patriotic recordings which have been distributed to schools by V. F. W. in the state and their national distribution will be considered at the next national encampment. Mrs. Whitney and her husband, Lloyd, a constitutional lawyer, were present at the recent installation of Sequoit Post and Auxiliary in Antioch. This is the first time there has been such a state approved award and the winner will be announced in June.

The annual graduation dinner of the Antioch eighth grade class will be served at 6:30 p. m. next Wednesday at Wesley Hall in the Methodist church. Members of the school board, teachers and parents of the children will attend. The Rev. Howard Benson will be the speaker. After the dinner served by the women of the church the pupils will go across the street to the school gymnasium for their party.

Graduation exercises of the school will be held May 27 in the school gym. County Supt. W. C. Petty will give out the diplomas. The Antioch school which includes pupils from the Emmons district, will be alone in the exercises this year. Channel Lake and Grass Lake will have their own commencement programs.

Emmons school will have its picnic starting at 10 a. m. Wednesday at Deer Haven, Ingleside. All residents of the school district have an invitation to attend and partake in a potluck dinner. In event of rain it will be held Thursday.

Topercer Gets Scholarship

John Topercer, son of John and Mary Topercer, owners of the Pantry restaurant, has been awarded a scholarship at Marquette University for his sophomore year. He also received a medal for his excellent drill work in the R. O. T. C. at the university during his freshman year.

During the past year young Topercer played on the freshman football squad and during the coming year he will be a member of the varsity squad. He held an athletic scholarship last year.

Shepaneks to Open Town, Country Shop

Connie and Ed Shepanek of Grayslake have leased the front half of the Olsen building on Main st., formerly the Antioch Recreation Lanes, and will open a women's, men's and children's wear shop.

Known as the Town and Country Shop it will have a shoe department in addition to the clothing department.

They expect to have their opening some time in June.

The shop here will be air conditioned and will have a modern interior.

The Shepaneks have two shops in Grayslake.

A good dish towel grows softer and more absorbent as it is used.

No Secrets

Plans have been made, and have received governmental approval, whereby a group of Russian farmers will be allowed to visit American agricultural areas, starting in Iowa. There is a question whether this tour will actually materialize, for the reason that the Russians are unwilling to accept provisions of American law providing for the finger-printing of foreign visitors. But whether it does or not, it is plain that Russian officials are extremely keen to learn about American farming. Russia always has a serious food problem, and whole regions of the USSR have been struck by actual famine.

In an editorial discussing the proposed tour, the Opinion-Tribune of Glenwood, Iowa, made this striking observation: "We have no apprehension that the visit to the United States by a group of Russian farmers will reveal any particular U. S. agricultural secrets. In fact, this country has no agricultural secrets—only hard work, progressive farm practices, and individual freedom and initiative."

If the Russians do come, they will see many outstanding evidences of material achievement. Our farmers use more and better tractors and other equipment than do those of any other country. They follow proven land and water conservation techniques. They have the boons of electricity, highly advanced chemical fertilizers, effective insecticides, and many other such tools. But most important by far, they have freedom. All these material benefits are the result of that freedom—and of the political and economic system which prizes individual freedom above all else.

* * *

State Lobbyists

The following editorial is reprinted from the Morgantown, West Virginia, Post:

"The Tennessee Legislature made an appropriation of \$50,000 the other day which should be of interest to the residents of every state in the union. This \$50,000, to put it bluntly, is to be used for lobbying activity on behalf of the Tennessee Valley Authority—and more particularly to get the maximum federal benefits for the TVA territory."

"It would be equally proper, we suppose, for the legislatures of other states to make similar appropriations to be used for lobbying activity to prevent their being put at any further disadvantage to the TVA states through federal subsidization of industry in those states."

"During the '30's, when the Federal Government was engaged in a federal relief program of what was then regarded as astronomical proportions, it was not uncommon for the governors of the states to maintain either full time or part time representatives in Washington charged with the responsibility of getting the maximum share from the distribution of this federal largesse. Without bearing the name, these rep-

resentatives were a sort of a state ambassador to Washington.

"If Tennessee is to set a new trend of that general nature, it may not be too long before most of the states will have their special lobbies in Washington."

* * *

An Industry Is Touched Off

Though comparatively few people know about it, April 18th marked the 100th anniversary of an event that has strongly and directly changed the lives of us all.

On that day, in 1855, Professor Benjamin Silliman, Jr., of Yale completed an analytical report that has been described as "a chemical classic that touched off an industry." The report dealt with "rock oil" that had been found in Pennsylvania. It said that "very valuable products" could be processed from it, that as an illuminant it was superior to the best whale oil, and that it could be very useful as a lubricant. Ironically enough, publication of the report was delayed for some time because of difficulty on the part of the men who had requested it in raising \$526.08 to pay Silliman's fee.

The Silliman study resulted in a chain of events that led to the founding of the U. S. petroleum industry. It answered questions which had made prospective investors exceedingly dubious about this almost unknown new product of the earth. Capital materialized, and in 1859 Colonel Drake brought in the world's first commercial oil well.

"Great oaks from little acorns grow" says the ancient proverb. The Silliman report, with its amazingly accurate prophecies, is certainly a dramatic example. In the century that has elapsed since it was made, the oil industry has become a fountainhead of social and industrial progress. It supplies two-thirds of the nation's energy requirements. A highly competitive industry, it now numbers more than 40,000 companies in production, transportation, refining, and distribution, along with 200,000 service stations.

Here is how free enterprise in a free system takes advantage of scientific knowledge and discovery to bring boundless benefits to all the people.

* * *

Gross Roots Opinion

LIBERAL, KAS., SOUTHWEST DAILY TIMES: "Proof that industry is moving to less populated centers for various reasons, is evidenced plainly in the case of the chemical industry. Of this industry's recent list of 480 construction projects, only nine, or less than two per cent, are in major metropolitan centers. The trend of industrial expansion is away from the larger cities."

SALEM, IND., LEADER: "A recitation of government aid on hospitals, welfare, housing, and what have you sounds splendid until we stop to consider that these funds are nothing but our own money taken to Washington, discounted a half or more through various bureaus, and the remainder sent back."

PARK FALLS, WIS., HERALD: "One of the silliest ideas to be proposed by organized labor in all its history is being pushed by the automobile workers this year and will probably result in a nationwide strike in the auto industry before the summer is out. We refer to the 'guaranteed annual wage.' In our free enterprise system of business how in the world can a manufacturer guarantee his workers an annual salary? No one guarantees the automobile manufacturer that he will sell his products and make a profit so that he can pay a 'guaranteed salary.'"

counter. "Here," she cried, thrusting forward a frayed little poppy. "This flower is poorly wrapped, see? The petals are twisted and the stem is coming apart. If I can't have something prettier to wear, I want my money back."

"I'll be glad to give you both to redeem that poppy you hold," replied the volunteer evenly. "You see, it was fashioned probably by a veteran with only one arm or perhaps with badly paralyzed hands. To me, those poppies may not be especially pretty, but they are pretty special."

The cheerful words floated just far enough on the air to hold a few passersby spellbound. They also caught, and held motionless for a brief moment of indecision the hands of the two women outstretched toward each other—the one with a small frayed flower the other with a perfectly formed poppy and a dime in the palm. Then the tableau was broken. Slowly the hand with the frayed poppy withdrew, awkwardly fumbled in a hastily opened purse, fished out a dollar bill and deposited it in the hand of the volunteer worker. "I'll be proud to wear this one. I'm so sorry, I didn't realize."

Like the woman, if people would stop and think what this little red flower stands for when the Auxiliary member asks them to "please wear a poppy," they too would be proud to wear one with a feeling of a heart full of satisfaction for having helped with the great work carried on by the Legion and Auxiliary. These poppy volunteer workers receive no remuneration for their time given so unselfishly, every cent received for the poppies goes into paying the veterans for the assembling, and the remainder into the Auxiliary rehabilitation and child welfare funds to be used through the year for giving aid to the disabled veterans and their families and to children of deceased veterans.

Child Welfare Picnic

Tenth District, Department of Illinois, is having a picnic at Adler's Park, Libertyville, Sunday, May 22 for children from the Children's Homes of the district. About 250 children are expected to enjoy the picnic starting at 1:30 p. m.

Bake Sale

Antioch Unit is sponsoring a bake sale on Saturday, May 21 held at the Carlson Ford salesroom, opening at 9 a. m. Home made cakes, pies, rolls, etc., will be there to tempt the shoppers who like good eats.

Every bad habit acquired by a person actually places a chattel mortgage on his personality.

To Get Instruments Next

The Antioch Band Parents association, meeting Monday at the grade school, voted to obtain new band instruments as the next year's project. George Olisar, director, reported on the state contest, and noted that the new uniforms the

parents bought the youngsters made a very good appearance on the stage.

Break Ground for Hospital

Ground will be broken at 3 p. m. Sunday for the new \$1,500,000 addition to Victory Memorial Hospital in Waukegan. A public service will be held in connection.

Auxiliary News

Poppy Poster Winners

Winners in the Poppy Poster contest, conducted by the American Legion Auxiliary, have been announced by Mrs. Louise Erickson, Poppy chairman of the unit. In Class I Liala Libigs was first; Dee Stillson second; and Lucy Carriek, third. Honorable mention to Beata Libigs, James Lucas and Penny Camphausen.

Class I—Sharon Berke, first, Carolyn Stoffel second; and Olivia Johnson third. Honorable mention to Jean Rentner, Jan Hughes, and Wally Lense. Judges of the posters were John Scott, Art director and teacher at Allendale School, Deborah Van Patten, a past president of Antioch Unit, and Robert Lindblad of the E and L Auto Sales Co.

Attend Luncheon

Four members of the Antioch Unit attended a luncheon Thursday, May 12 at the Rustic Manor, given for Mrs. Ruth McMackin, department president and Mrs. Helen D. Megels, second division president. Mrs. Dorothy Horan, Mrs. Carolyn Horan, Mrs. Maude Johnson and Mrs. Del Jaheneke were those attending the luncheon.

Poppy Day

Poppy Day is just around the corner and poppies—the memorial flowers of the American Legion—have been blooming in the hospital wards throughout Illinois as our disabled veterans with busy hands have been assembling them so that they may be distributed on Poppy Day by the American Legion and Auxiliary so that these two organizations may continue their program of service to disabled veterans and their families.

Each year just prior to Memorial Day, thousands of American Legion Auxiliary members stand on the street corners in every city throughout our nation, with bright red poppies made by disabled veterans, asking the millions of passers-by to "Please wear a poppy in honor of our heroic dead and in service to our disabled veterans." Over 3,000,000 poppies have been assembled in Illinois hospitals alone, during the past months.

Poppy days in Illinois are Friday, May 27, and Saturday, May 28. Mrs. Dorothy Horan, president of Antioch Unit 748, has appointed Mrs. Louise Erickson as chairman of the Unit Poppy committee.

The national Auxiliary president, Mrs. Percy Lainsan, tell this true story: The American Legion Auxiliary volunteer was distributing her Memorial Poppies on one of the busiest street corners in town when a well dressed woman bore down upon her with all the self righteous indignation of a dissatisfied customer at a department store exchange

Famed Corregidor Now Philippine National Shrine

WASHINGTON—Corregidor, the war-scarred island in the Philippines, is becoming a mecca for tourists.

The one-time Gibraltar of the East, and the historic peninsula three miles north have been set aside by the Philippine Government as a national shrine.

Visitors are transported by ferries from Manila, 30 miles eastward. Roads have been cleared on the island which has become a tangle of tropical greenery since American paratroopers took it back from the Japanese in 1945.

Today the visitor sees rusty guns which bear the marks of tourists' initials as well as of war. The bombed-out ruins of an old light house is testimony to the historic fighting that took place here. The roofless remains of barracks and mess halls stand out on the elevated western portion of the island.

Corregidor's days of glory began soon after the first assault on the Philippines in December, 1941. The Japanese pushed through Bataan, their planes bombing Corregidor relentlessly, day and night. When Bataan fell, Corregidor was unquestionably doomed, but the island troops fought on.

One night sound locators picked up the ominous noise of landing barge motors. The enemy was heading toward the east end of the island. The landing was costly for the Japanese, but their numbers told the story. Lt. Gen. Jonathan Wainwright, facing a choice of surrender or the wholesale slaughter of his troops, chose to surrender. That was on May 6, 1942 and the surrender ended more than three months of direct siege.

Smoke Habits Hit By Cancer Report

ANN ARBOR, Mich.—Half the smokers in this city changed their smoking habits last year, the time when many medical experts were first saying publicly that cigarette smoking could cause lung cancer.

Eight per cent of them actually gave up the habit completely. And two out of five of the smokers who recently changed their habits in some way gave as their reason the news about smoking and cancer.

These are findings from personal interviews taken in a cross-

section sampling of the city by the Survey Research Center and the Department of Journalism at the University of Michigan.

Among the smokers who changed their habits without quitting, about one out of five changed to filter tip cigarettes. The rest "cut down" their cigarette use, changed brands, or increased pipe smoking.

The survey shows that the reaction to news about smoking and cancer depends mainly on three factors: 1) whether an individual smokes, 2) how much education he's had and 3) what his parents thought about smoking.

Pounds of Pearls Found in First City

CARACAS, Venezuela—Pearls, pearls, nine pounds of them were discovered here recently.

Professor Jose Maria Cruxent, director of Caracas' Museum of Natural Sciences, said he found the treasure buried in the debris of South America's first city.

With the aid of Professor John Goggin of the University of Miami, Professor Cruxent had been excavating the site of Nueva Cadiz, a city founded on Cubagua Island in 1516 and completely destroyed by a hurricane in 1534.

The pearls, contained in a Spanish clay jug, were found in the earth under the ruins of a house and are estimated to have been worth about \$300,000 when buried. However, it was pointed out, their value is considerably less now, as pearls lose their lustre over so long a period of interment.

Hoggish Sea Birds Irk African Senator

PRETORIA, S. Africa—Should sea birds be protected if they are harmful to a nation's food supplies? South African Senator S. M. Petterson doesn't think so. He recently told the Senate it was estimated back in 1835 that birds were eating 8,000,000 tons of fish a year off the South African coast.

Petterson said the birds' take has probably increased since to 15,000,000 tons a year—400 times the fishermen's catch.

Sure Evidence

RICHMOND, Va.—Bruce Smith, Jr., Garden City, N. Y., research consultant surveying the Richmond Bureau of Police recently received a firsthand introduction to the crime situation here.

While Smith was conferring with city officials, thieves broke into his parked car and stole two suits and a camera.

Local Couple Married 60 Years

Mr. and Mrs. William Edwards of Antioch recently observed their sixtieth wedding anniversary at their home, 257 Ida ave. with open house. Many friends called and extended best wishes for continued good health and happy married life. (Waukegan News-Sun Photo.)

SOCIETY EVENTS

Uldine Mae Andersen Wed to Gordon Wells Jr.

Miss Uldine Andersen became the bride of Gordon Wells, Jr., in a double ring ceremony at the Methodist church at 8 o'clock Saturday evening. The Rev. Howard C. Benson officiated at the service.

The bride, daughter of Mr. and Mrs. Arthur Andersen of Grass Lake, was given in marriage by her father. She chose for her wedding a waltz length gown of princess lace and nylon tulle over satin. Her fingertip veil was held in place by a headpiece fashioned of lace and pearls. She carried a bouquet of white carnations and white sweet-peas.

Mrs. Judith Kelly, sister of the bride served as matron of honor, wearing a Nile green gown of nylon net over taffeta and carried a bouquet of green and white carnations. Miss Lucille Wells, sister of the bridegroom served as bridesmaid. She wore an orchid gown of nylon tulle over taffeta. Her flowers were orchid and white carnations.

The bridegroom is the son of Mr. and Mrs. Gordon Wells of Antioch. Everett Wells served as his brother-in-law, and Richard Kelly, John Wells and Kenneth Andersen were ushers.

Miss Sylvia Beelow sang "I Love You Truly" and "The Lord's Prayer," accompanied at the organ by Mrs. Frank S. Royer.

A reception was held immediately following the ceremony at Wesley Hall.

Mrs. Andersen, mother of the bride wore a beige gown with brown accessories. She wore a corsage of yellow and white carnations. The bridegroom's mother wore a pink gown with black accessories, her flowers were pink and white carnations.

Both the bride and groom are graduates of the Antioch Township High School. The groom also served two years in the U. S. army.

After a short wedding trip the newlyweds will be at home in Round Lake.

Channel Lake Community Organization Treats Its Children to Chicago Trip

The Community club of Channel Lake will hold a games party at the BZB tavern on Lake ave., Channel Lake at 8 p. m. Saturday.

The minstrel show held recently at the Channel Lake school by the club was a success. Much of the credit for its success is given by Maurine Dahlman, activities chairman, and Agnes Van-Patten, director, to those who participated and made material contributions.

The club treated the graduates of both the Channel Lake school and St. Peter's school who live in the community to an outing in Chicago today. They attended a movie and had dinner in a well known restaurant.

Mrs. Irish Re-elected Pres. of Evening Circle

Mrs. Robert Irish was re-elected president of the Evening Circle of the Methodist Women's Society of Christian Service at a meeting held at the home of Mrs. Warren Polley, Thursday evening. Other officers chosen were: Mrs. Rogers Westlake, vice president and program chairman, Mrs. Lamont L. Davis, secretary, Mrs. Robert Duka, treasurer, and Mrs. Louis Schafer, devotional chairman. Miss Carol Bean led the devotions and Mrs. Westlake gave an interesting book review. The group voted to discontinue meeting for the summer months.

Eight Antioch Men Attend Retreat at Glenview, Illinois

Eight members of the Holy Name Society of St. Peter's church led by their president, Lester Hamlin, spent last weekend at Villa Redeemer, a Redemptivist Retreat house in Glenview.

There they participated in "Sixty Golden Hours" of prayer, meditation, and religious discussions.

Others besides Lester Hamlin attending were Carl Casperson, Irving Carey, Edward Cranley, Robert Berg, James Scully, Donald Kanabay, and Lawrence Lang.

Mesdames Wanda Otfedahl, Lillian Hand, Jane Coddington, Gertrude Dunning, Lillian Gable, Dorothy Besch, William Wills, Ann Kopriva and Margaret Gaston, members of the Antioch Business and Professional Women's club, were guests of the Westosha club at a dinner meeting Monday evening at Twin Lakes, Wis.

Ladies' Auxiliary to Hold Social Meeting

The Ladies' Auxiliary of St. Ignatius Episcopal church will hold a social meeting at 8 p. m. Wednesday, May 25 at the home of Mrs. Fred Hawkins. Members are asked to bring an apron, to be sold at the Fall bazaar. Members assisting Mrs. Hawkins on the committee are Miss Gertrude Hawkins and Mesdames Mary Barr, Mary Pechousek, and Vera Maier.

H. E. Shepard of Kansas City, Mo., spent the week end with relatives in Antioch.

Candlelight Ceremony Joins Shirley Ross and Bernie Gutowski, Sat.

Antioch St. Peter's church was the scene of a double ring candlelight ceremony at 2 o'clock Saturday, May 14, when Miss Shirley Ann Ross, daughter of Mrs. George Ross of Kenosha, Wis., became the bride of Bernard Gutowski, son of Mr. and Mrs. Bernard Gutowski, Sr., of Grass Lake, Antioch.

The Rev. Fr. Francis Johnson officiated at the ceremony and the bride was given in marriage by her foster father, Lee Ross. Shirley Ann wore a floor length gown of chiffon embroidered nylon tulle over satin. The sculptured bodice fashioned an embroidered V neckline with long tapered sleeves. The wide tiered ruffled bouffant skirt fell into back point ruffles that fell into a chapel sweep. A matching crown held her silk illusion fingertip veil. She carried orchids and prayer book.

Miss Barbara Forbrich served as maid of honor and the Misses Darlene Petersen and Marlene Freund served as bridesmaids. They wore gowns of nylon chiffon, the cummerbund waist fashioned a shirred bodice trimmed with tucked pearls that featured shoulder streamers. The unpuffed pleated bouffant skirt fell into soft folds in floor length. They wore matching head pieces trimmed with tiny flowers.

Joseph Gutowski, brother of the groom served as best man and Eugene Ross and Ronald Peters were attendants and George Ross and Frank Benes served as ushers.

Miss Ellen Albrecht sang special wedding music, accompanied at the organ by Mrs. Arthur McGreal.

A reception was held at 7 o'clock at the American Legion hall.

Both Mr. and Mrs. Gutowski are graduates of the Antioch Township high school. After a wedding trip to Niagara Falls, Washington, D. C., and other points in the East, the newlyweds will be at home May 28 at 1005 Bishop drive, Antioch.

SALEM

Mr. and Mrs. F. H. Wheeler are rejoicing over the birth of another daughter, Tracey Louise, born May 15 at Victory Memorial hospital in Waukegan, Mrs. Wheeler is the daughter of Mr. and Mrs. E. H. Hartnell.

The Woman's Auxiliary of the fire department will hold a card party at the fire house on Saturday evening, May 28. The public is invited. The proceeds from this party will go toward the playground fund.

A large number attended the bridal shower given at the school on Sunday afternoon in honor of Miss Mabel Tuttle, daughter of Mr. and Mrs. Gilbert Tuttle. Mabel will become the bride of Warren Priess, son of Mr. and Mrs. Walter Priess in June.

Mr. and Mrs. Clarence Nelson have returned from their wedding trip and are living at the home of Mr. and Mrs. Elmer Kaphengst.

Mr. and Mrs. Clarence Imrie have been making frequent trips to Burlington to call on Mrs. Imrie's mother, Mrs. Gardiner who underwent surgery at the Burlington hospital.

The Royal Neighbors met Thursday evening at the home of Mrs. Roger Huntoon. Those present were Mrs. Opal LaRose of Kenosha, Mrs. Janet Fletcher, Mrs. George Biemer, Mrs. Olive Olson, Mrs. Effie Hartnell, Mrs. Andrew Fennema, Mrs. Lee DeBell, Mrs. Annie Minnis, Mrs. Laura Miller, Mrs. Andrew Neilson, Mrs. Byron Patrick, Mrs. Arthur Feldkamp. The next meeting will be with Mrs. Janet Fletcher.

Rev. and Mrs. Tuttle Parents of Daughter

The Rev. and Mrs. Richard Tuttle of Sunnyside, Wash., former residents of Antioch are the parents of a daughter, "Marilyn Janette," born May 5. The Tuttles have three sons, who were born while Mr. Tuttle was pastor of the Antioch Methodist church.

Installs V.F.W. Auxiliary President

Rose Mary Kaiser, left, senior vice president of the state department, recently installed Frances Barnstable as president of the Lake Villa Auxiliary of the Veterans of Foreign Wars in a meeting held at the Lake Villa Grade School.

(Russell Nickerson Photo)

Methodists Will Hold Quarterly Conference

Members of the Methodist church will meet at 3 p. m. Sunday for their fourth Quarterly Conference, which is the annual meeting of the church. Dr. Bond, district superintendent of the Northern District of the Rock River Conference, will preside.

Reports from the various groups within the church will be received and officers elected for the new year. The church year will begin July 1 immediately following the meeting of the Rock River Annual Conference which will be held in Elgin June 20-24.

MYF Boys to Cook for Girls Who Will Entertain

The boys of the High School Methodist Youth Fellowship will be hosts to the girls Sunday, May 22, at 6 p. m. when they will cook and serve the supper. The girls in turn will be in charge of the entertainment following the supper. The evening's fellowship will conclude with a service of worship led by the youth. All high school youth of the community who are not active in other church groups are invited to come.

Big Free Dance at Central

The Central High School community is invited to a free dance Friday, May 27 at the high school, Salem, Wis. The Central Community Club has engaged Uncle Clarence's Ol' Timers and Billy Benson's Hot Shot Five.

Everyone is urged to attend the short business meeting at 8:15 for the election of officers and adoption of the revised constitution. Refreshments will be sold.

Graduates From National

Miss Suzanne Kathryn Scott

Miss Suzanne Kathryn Scott, daughter of Mr. and Mrs. Leon C. Scott of Arthurdale Farm, Antioch will receive the Bachelor of Education degree from National College of Education, Evanston, Ill., at commencement exercises Monday, June 6. The College, oldest private school in the nation devoted to preparing elementary teachers, offers professional teaching experience in its own demonstration school throughout the four-year education course.

Miss Scott has accepted a position teaching second grade in the Tucson, Ariz., public schools.

During her college career, Miss Scott was social chairman of the Dormitory Girls Association and was a member of the College Choir.

Methodist W. S. C. S. to Hold Meeting Wednesday

The Women's Society of Christian service of the Methodist church held its regular meeting at the church Wednesday. The Rev. Howard Benson was guest speaker. Mrs. David Noddin and her committee had charge of the luncheon.

Mrs. Baethke to Teach Here

Mrs. Elmer Baethke of Antioch, who has been teaching in the Lake Villa Grade school, has been employed to take the place of Miss Joan Crawford, resigned, as third grade teacher in the Antioch school.

Parents Discuss Freshman Schedule

Elmo W. Edwards, seated, left, assistant principal of Antioch Township High School, discussed curriculum and schedules for freshmen with (seated) Mrs. Winifred Bromstad and son, Allen, and standing, Mrs. Eric Anderson and daughter, Rebecca, all of Millburn. The boy and girl will enter Antioch High School next September. Through discussion with the parents the courses of the children can be charted with better results. (Warren Polley Photo)

Women of the Moose To Award Honors to Committee Members

New Horizons Certificates will be awarded to committee members by the Women of the Moose, Antioch Chapter No. 735, at their Chapter meeting tonight, at the Antioch Moose Lodge.

Senior Regent Mrs. Frank Kennedy, Jr., will introduce the chairman who will present the certificates to the following committee members:

Social Service—Mrs. Art Bertoloni, chairman, Mesdames Lester Nelson, Art Burnette, David Harrell.

Homemaking—Mrs. Charles Meierdick, chairman, Mesdames Jean Calcott, Homer Toft, George Nelson, William Johnson, Clarence Jarvis, Burt Anderson.

Hospital—Mrs. Fred Gras, chairman, Mesdames James Long, Harry Arndt, John Kennedy, Douglas Palm, William Zirzow.

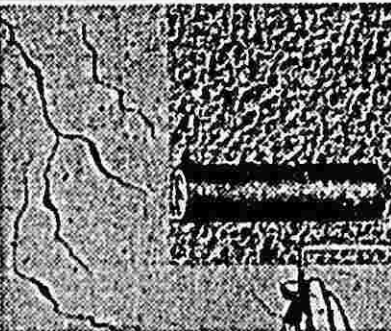

Membership—Mrs. George Schroeder, chairman, Mrs. Leonard Roblin.

No committee—Mrs. Frank Kennedy, Jr., Senior Regent.

Make 4-H Camp Reservations

Many 4-H Club members have made their reservations to attend district 4-H Camp Shaw-Waw-Nas-See July 18-22 according to an announcement by farm and home advisers, Ray T. Nicholas and Helen Volk. Lake County 4-H members will attend camp this year along with members from Bureau, DuPage, and Marshall-Putnam counties. Lake County's camp quota this year is 75 girls and 25 boys. There is still an opportunity for more members to make reservations to attend the district camp, according to the advisers.

Tired of Unsightly Walls? Plastr-Tone Is Answer

When paint isn't the answer Plastr-Tone is. While ordinary paint accentuates cracks and ugly breaks in walls, Plastr-Tone hides and effectively camouflages these unsightly blemishes, because only Plastr-Tone imparts a new textured surface while you re-color your favorite rooms.

Plastr-Tone is that new, simple-to-apply miracle product which actually plasters as you paint. You roll it on, or brush it. Handle it like paint but just watch it re-surface, repair and re-color all in one operation. Comes in fifteen ready-mixed colors and white. Perfect for every room in the house, it can be applied by anyone. It's so durable, and economical, too.

PLASTR-TONE

is available at

Study Backs Up Claim That Men Are Safer at Work

NEW YORK—"Safe as in your own home," is an old saying, but apparently one that is not completely accurate in view of the experience among males with industrial insurance.

Insurance statisticians say that American wage-earners have fewer accidents while on the job than they do out of working hours—at home, on the streets, and in recreational pursuits.

The proportion of accidental deaths occurring off the job varied with the occupation of the worker and in a number of occupational groups all or nearly all of the fatal injuries were sustained off the job.

Examples of such groups are workers in cotton or woolen mills and in furniture factories, barbers and operatives in shoe and clothing factories, among whom the non-occupational mishaps accounted for the entire accident death toll in the years 1951 through 1953, according to the records of one insurance company.

Other such groups are the white collar workers—clerks and other office workers, merchants and storekeepers, store clerks and salesmen—among whom fewer than one in ten of the accident fatalities arose in the course of their employment.

Even in occupations which involve appreciable accident hazards, off-the-job accident fatalities predominated in the insurance experience.

Cites Big Problem Of Today's Schools

ANN ARBOR, Mich. — Adjustment of schools and colleges to meet individual differences in children and youth is one of the major problems of contemporary education, says Dean Willard C. Olson of the University of Michigan School of Education.

Dean Olson believes that the differences that exist among students is far greater than is believed by those who have not made an intensive scientific study of human characteristics. Besides the obvious variances in physical measurements, in intellect, in achievement, and in personality, there are also differences that can not readily be measured, he said. "These are the differences in motivation, in drive for achievement, and in future goals," he explained.

Dean Olson said that the method currently in practice in selecting students for college on the basis of their general aptitude and rank in the senior class is working in the correct direction, but is insufficient to diagnose a student's promise. He says colleges are still missing large numbers of persons of talent and outstanding capacity who could profit by a more prolonged training.

Smithsonian Institute Adds Balanoglossus

WASHINGTON—You might be interested in knowing that the latest addition to the Smithsonian Institution's biological collection is a balanoglossus.

The balanoglossus, in case you didn't know, is sometimes considered a link of sorts between three major groups — worms, enchinoderms or member of the general starfish family, and vertebrates. It (the balanoglossus) got stuck in the mud two or three hundred million years ago and remained most like a worm.

The Smithsonian's giant "worm" was dug out of the beach sand at Grand Isle, La., by Dr. Harry J. Bennett of Louisiana State University, a job that required half a day and the utmost care of six helpers, for if the animal had been disturbed in any way during the operations it would probably have been broken to bits. Similar animals as much as six feet long have been reported but have been recovered only in fragments.

Big Bray Over Phone Identifies Man

SAN ANTONIO—Texas Ranger Zeno Smith tells of a wealthy rancher picked up as a drunk in Fort Worth. To establish his identity, the man asked police to telephone the sheriff of his home county.

"Will you ask the subject to come to the phone and bray over it?" the sheriff requested. The rancher went to the telephone and brayed like a donkey.

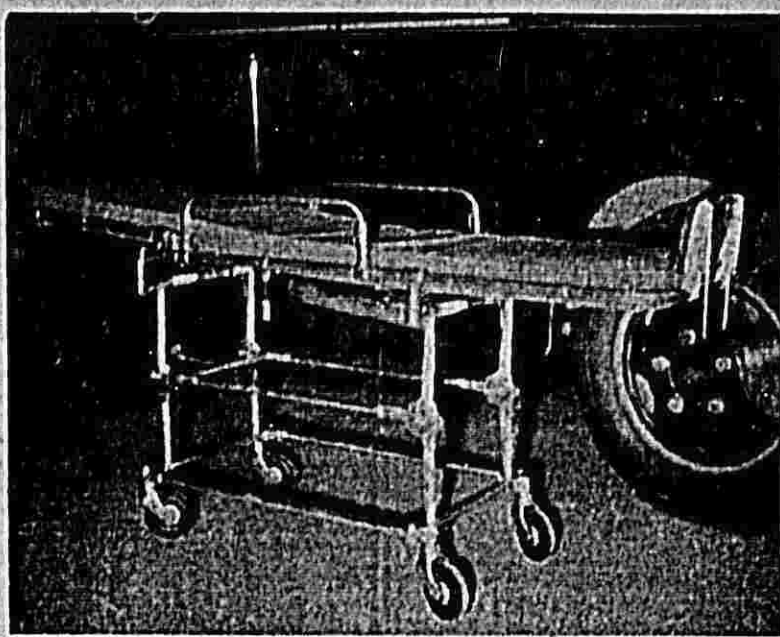

"He's telling the truth," the sheriff said. "There ain't nobody in this county can go like a jack-ass like him."

Too Much Egg

LATHAM, N. Y.—Laying a king-sized egg apparently was too much for a chicken owner by Edward Onyon, 10.

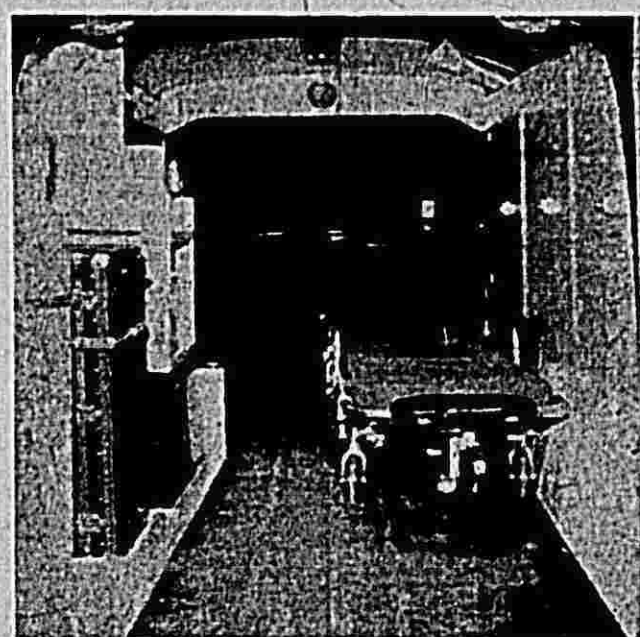

Edward found his hen dead beside an egg that was described as being 4 inches long and 6 inches in circumference.

New Stretcher First of Type Here

The Rescue Squad's new stretcher is of a kind that can be raised to a height level with a hospital bed or operating table so that the patient can be easily transferred. Before it was obtained the men had to lift the person with danger of injury to themselves as well as the person.

Ambulance Made From First Truck

The interior of the Rescue Squad's remodeled original truck is here shown with its new stretcher. On the left is the inhalator, appearing like a trunk, and on the right are the paneled shelves for other equipment.

Old Truck of Rescue Squad Remodeled into Serviceable Ambulance With Latest Equipment

The old truck which the Antioch Rescue Squad started out with nearly 15 years ago has been remodeled and brought up to date through modern equipment, Capt. Herman Holbek announced.

Mortensen Builders donated four days of labor in putting in the paneling and cabinets, the lumber for which was donated by the Antioch Lumber Co.

Drije Chevrolet painted the inside of the truck gratis and the hardware and other material were furnished gratis likewise by the Coddington Hardware Co. Straps were furnished without charge by Barnstable and Brogan, and the upholstery was done free of charge by Wilson Upholsterers on Rte. 173.

A feature of the equipment is a new stretcher which is the only one of its kind in Northern Illinois. The stretcher can be raised automatically so that a patient can be slid from it onto one of the high hospital beds. Heretofore the men had to raise the injured or sick person by awkward lifting, which was both injurious to them and the patient.

The squad long has been in need of an extra truck in addition to the new one for use in institutions where a number of persons are hurt and need to be taken to the hospital. The old truck could be used to handle first aid but was not suitable as an ambulance until it was remodeled.

Splering to Address Lions

Clarence Splering will speak and show slides concerning his trip to Europe and Northern Africa last summer before the Lions Club Monday evening at St. Ignace church.

Atty. Ed Jacobs, program chairman, said that George Maypole of Palm Springs, Calif., formerly of Fox Lake, will be present and tell how the Lions Club functions in California.

Mr. and Mrs. Baethke Parents of Son

Mr. and Mrs. Ray Baethke are the parents of a son born May 16 at Victory Memorial hospital, Waukegan. The little boy weighed 7 lbs. and 11 ounces.

They Will Attend Girls State and Boys State

Rosalie Morris, daughter of Mr. and Mrs. Edward Morris and Jerome Meyer, son of Mr. and Mrs. Hober Meyer will attend Girls State and Boys State. They are sponsored by the American Legion Auxiliary and American Legion.

Tops League Batting List

Mike Haviland

Mike Haviland, shortstop and pitcher for Antioch High School leads the Northwest Conference in batting. His average all year has been above .550. Haviland is a senior. His brother Buzz, also of Antioch High school is batting around .350 as second in the batting order of the Northwestern University team in the Big Ten.

Light Frost Yesterday

Cooperative weather observer, Roy Kufalk, said that the mercury dropped to 37 degrees early yesterday morning and there was a light frost, which did little or no damage. The heavy frost which likewise did no damage was on May 9 when the temperature dropped to 34 degrees. Warmer weather arrived yesterday during the day.

Kids Learn Music In Unique Course, Without Piano

CHICAGO—A year ago, Charlotte fourth-graders recited their pledge of allegiance to the flag as usual, then sat down to find paper reproductions of a piano keyboard at their desks.

It was the introduction of a new course in music education their teachers called "keyboard experience," for the purpose of teaching rudiments of melody and rhythm.

They giggled. Music without a real piano? Music without music? How mixed up could teacher get?

But teacher herself had either a piano or resonator bells giving off tones corresponding to certain notes on the piano. She'd strike a note on the piano and the children would strike the same note on their paper keyboards. Occasionally, a pupil would take teacher's place.

The idea sounds a little hollow. Nonetheless, today instead of 2,000 children there are 4,650 in the fourth and fifth grades who get such instruction one hour each week. Next year it will be extended to the sixth grade. A classroom program in actual piano instruction is in the making at the junior high level, all because of interest created by the paper keyboards.

The keyboard experience project merely helps children recognize that notes on sheet music correspond to certain keys on the board. It also enables them to read music, recognizing the difference between sharps and flats.

Teacher may or may not have a piano, but keyboard experience is one of the most popular studies on the elementary school level.

Famed Venice Asks Help From World

WASHINGTON—Venice, Italy's canal city long recognized as the Queen of the Adriatic, is slowly settling into the sun-flecked waves from which she rose 1,500 years ago.

The famous Campanile, rebuilt after its 1902 collapse, already shows cracks. Time's insensitive disregard for man's architectural endeavors tells on the marble palaces flanking the Grand Canal. Wind-whipped tides often invade St. Mark's Square, and each year a tenth-of-an-inch lowering of the earth's surface along the coast hastens the erosion.

Venice, whose glittering beauty has long enchanted the world, is inviting the world to help save her crumbling charms. Millions of dollars are needed to ward off an inglorious end, and neither the city's hard-pressed patricians nor her wage-earning citizens can afford large-scale renovations which call for a national and international effort.

Architects and friends of Venice around the world are being sounded out about plans to shore up artistic monuments and improve crowded living conditions. A new power house, water reservoirs, ferry-boat terminal, customs station and warehouses are projected. But as Venice calls out for help, decay eats away at the famed city.

2 Million Gallons Water Lost Daily

BALTIMORE—As much as 2,000,000 gallons of water is leaking out of the Baltimore water system every day and nothing can be done about it—that is until March, 1956, says the City's acting chief water engineer.

Bernard L. Werner said the water is being lost through a series of leaks caused by contraction of the joints in a large tunnel carrying water to about half the city. And that's the problem.

Because the tunnel handles so much of the city's supply, it cannot be shut down for repairs until other major installations are completed. This will be in March, 1956, or thereabouts.

Bell-Bottom Pants

WASHINGTON — Bell-bottom uniforms will continue to be standard wear for Navy men says Navy Secretary Charles Thomas.

There was a postwar campaign for the Navy to change the uniform, as the Army is doing. Many wartime sailors complained bitterly about what they had to wear.

Asked about the new uniform program in a television interview, Thomas said those who want to change it are in the minority.

CAUGHT WITH YOUR SALES DOWN?

Mr. Merchant, if your sales are down, maybe your customers are slipping away!

Reliable statistics show that the average business loses 30% of its customers through death, dissatisfaction, moving to other areas, etc. Normal gains average 4%, leaving a deficit of 26 per cent! WHAT TO DO ABOUT IT? The surest, and most profitable way to increased sales, is consistent, timely advertising in your newspaper.

Come in or call! Let us help you plan an advertising program suited to your needs.

RECEDING HAIRLINES

By Science Features

There's no use losing any sleep worrying about losing your hair—for so far there is nothing that can be done about getting bald. Whether or not people lose their hair is determined primarily by their genes and not by their own effort.

The most frequent type of baldness is inherited from parents and—like almost everything else—is influenced by sex; men are much more affected than women. Baldness may also develop from inadequate care of the scalp or as a result of serious infections such as pneumonia or influenza. Frequently, in these cases, the hair returns when health becomes normal.

Gray hairs are not symptomatic of baldness but merely lack the special pigment for hair coloration. Most men lose about 60 hairs a day, but, as the typical head contains 100,000 strands, it does not make much difference—if the healthy scalp produces replacements.

The first chemical clue to the cause of baldness was recently discovered at the University of Pennsylvania Medical School. Scientists found that sebum, an oily substance secreted by the scalp, contains hair-killing compounds. It was previously regarded as an agent that only lubricated the scalp. The body's sex hormones are said to regulate the amount and quality of sebum produced.

Experiments are under way to determine what substances explain why hair grows in most cases and what can be done to prevent thinning in others. A prescription for preventing baldness may be a long way off but medical researchers feel that progress is being made.

By JACK SEIB and JOHN SHERBET

It is a wonderful realization to know that soon we will be able to look into distant places like Paris, Cairo, Rome, Tokyo by way of our TV screen.

World coverage by TV is nearing. Europe and the Orient have networks. Africa and Egypt will have stations this year. Even Russia has her main cities set-up with a network. Mexico City will possibly be relayed into Texas this year. South America would be next.

One problem remains and that is relaying over the great distances of water. It can be done as shown with the world baseball series last fall. A plane equipped with TV relaying equipment, flew a small circle over the Atlantic half way to Cuba, and relayed the baseball broadcast to Cuba from a Florida relay post.

That TV in your living room has a great potential for the future. The servicing of TV for the best viewing potential is improving, too. We at COURTEOUS TV keep up-to-date on all the latest servicing methods. Phone 144 next time and see the difference in your TV picture.

It costs no more to go "First Class"

Vacation idea... VISIT FORD ROTUNDA, SHOW PLACE
OF THE AUTO INDUSTRY, DEARBORN, MICHIGAN

You pay nothing extra for Ford's Thunderbird styling...
Luxury Lounge interiors... smoother Angle-Poised ride...
nor for Ford's 23-year V-8 experience that brings you
Trigger-Torque power!

Only Ford offers Thunderbird Styling

Take a closer look at those long, low, "front-running" lines. From the smart, visored head lights to the tapered tail fins, they're Thunderbird through and through. Step inside. Colorfully fresh new Luxury Lounge interiors make Ford truly your "living room on wheels."

Your new-car dollars buy more today. For example, a first-class ride in a first-class car is yours at Ford's low fare.

You command a Y-block V-8 that responds reassuringly when you need it. You have Ford's smoother Angle-Poised ride cushioning out road shock wherever you go. And you own the style-setter—the car that's styled like its brilliant running-mate, the Thunderbird.

You can expect more when you trade, too... for Fords have been returning more in resale than any other low-priced car. Take a Test Drive and you'll see why!

Only Ford offers Trigger-Torque power

Whether you choose the 162-h.p. Y-block V-8 or 182-h.p. Special V-8, you get split-second "Go" when you want it. With Speed-Trigger Fordomatic, you're even farther out front... automatically.

THE NEW BEST SELLER...
sells more because it's worth more!

Defense Materials Top Expenditure For Our Government

NEW YORK—A new look at the cost of running the Federal establishment has been taken by the U. S. Bureau of the Budget with the objective of providing a clearer idea of where the Government spending dollar goes.

The new analysis of Federal spending shows the relative importance of individual items in the make-up of the total. The biggest single item is defense material. For the 1955 fiscal year, this item is placed at \$12.6 billions, the equivalent of 30 per cent of the entire defense allocation for the year. Expenditures for planes alone represents more than half the total spending in this category.

Second in size in the entire budget is the pay and subsistence of the Armed Forces, which adds up to an estimated \$10.2 billions for the year. The third biggest item is the classification of repair, maintenance and operation of defense equipment and installations, which is placed at just under \$8 billions for the period.

These three defense items alone come to almost \$31 billions for the 1955 fiscal year, or nearly half of the whole budget for the year. These figures, however, represent reduction from recent peaks.

Physicist Designs New Blood Warmer

SCHENECTADY, N. Y. — A physicist who normally specializes in neutron spectrometry, magnetic materials and computers has been cooperating with local physicians here in an effort to help save the lives of babies born with the wrong type of blood.

He has invented a blood warming device to lessen the shock which newborn RH-negative infants endure when new, but cool, blood is substituted for the original deadly supply with which they are born. The basic operation—known to physicians as an "exchange transfusion"—is one of the newer miracles of modern medicine developed by Harvard's Dr. Louis K. Diamond and others.

The blood warmer was prompted by an over-the-fence conversation between Dr. Steward C. Wagoner, Schenectady pediatrician, and Dr. Volney C. Wilson, physicist at the General Electric Research Laboratory. Dr. Wagoner felt it would be possible to save more than 90

per cent of these infants if some suitable way could be found to warm the blood, just as it enters the baby's body.

Dr. Wilson designed a blood warmer that has been used by Dr. Wagoner and Dr. Frank L. Martin in operations to save the lives of more than 20 endangered infants delivered at hospitals in Schenectady... with no fatalities or shock reported in any case.

Under-18 Age Group Greatly Increased

NEW YORK — Children under age of 18 in the United States now number about 54½ million, an increase of 13 million in the ten years since the end of World War II.

The increase for the 10-year period broke all previous records and was greater than the gain during the preceding 45 years.

The total number of children is expected to continue to climb, and it is estimated on the basis of projections by the Bureau of the Census that there may be upward of 63 million children under age of 18 in the United States by 1965.

Currently about seven million children — almost one-seventh of the total—live with only one parent or with neither parents, mainly because of family disruptions through death, divorce, or separation. Of these, about 4.1 million live with their mother, 600,000 with their father, and the remaining 2.4 million under a variety of other arrangements.

Posing as Capitalist Brings Red Troubles

HONG KONG—Posing as the son of a wealthy capitalist is a bad thing. It cost a young Chinese Communist his membership in the party, despite the fact that he did his "pretender" in two separate affairs of the heart.

A Shanghai dispatch said the ousted Red, Lo Heng, was first "put under observation" by the party for using the pose in an effort to win a "bourgeois" girl.

Later, the dispatch added, he used the same approach in trying to win a "fish-market comrade." For this, he was expelled as "hopelessly corrupted," the dispatch said.

Fresh From Farm

TOKYO—They aren't trying to keep 'em down on the farm over here.

The Tokyo Metropolitan Government recently in a mass employment brought 158 farm girls, aged 17 to 25 to the city and assigned them jobs as housemaids.

'Do-It-Yourself' Provides 6 Billion Dollar Industry

NEW YORK — Today's "do-it-yourself" industry provides a six-billion-dollar market for new tools and materials of all types and sizes.

Hundreds of exhibitors catering to the handy man displayed their wares at a recent show in Chicago and more than 83,000 avid hobbyists attended to gaze at the latest developments and try out the new machines and tools.

New tools are designed for the use of the amateur. They are compact but powerfully built—versatile but simple in design and use. By using the new bench saw, lathe, power sander, electric drill, or portable power saw, the novice can turn out work with a professional touch. Patented developments in the power-tool industry have helped increase its annual sales to about \$250,000,000—ten times the size of the market before the war.

Manufacturers of materials have kept apace by bringing out new easy-to-use paints and wallpapers, rubber and plastic tiles, aluminum products, and home insulation. They have packaged lumber in convenient sizes, and concrete formulas ready to mix.

The shortages of labor and products during World War II convinced thousands of men and women that the only way they could obtain the "extras" they wanted was to contrive them. Some latent abilities among those amateur craftsmen enabled them to turn out finished products that inspired others to take up the hobby, and soon millions of people were designing and building in their own homes. New power tools and materials helped the spark grow and grow.

New Elephant Act For St. Louis Zoo

ST. LOUIS — Eight baby elephants imported from Siam are expected to become top headlines at the famous St. Louis Zoo.

The elephants, a gift from brewing company president August A. Busch, Jr., were purchased for \$30,000 and imported from Siam last October. They were sent to "training school" at the Gobel Animal Farm near Los Angeles.

The elephants, all girls, range in age from 1½ to 3 years, stand about four feet high at the shoulders and weigh about 400 pounds.

For training purposes, they were named Alice, Clara, Eleanor, Helen, Marie, Pemie, Susie and Trudy. They won't keep these names, however, but will assume ones decided after a naming contest to be conducted among St. Louis school children.

Special costumes have been made for the elephants who are being trained to walk while holding one another's tails, to stand with front feet on one another's back, to form pyramids, dance and play musical instruments.

How Much Money Is Billion Per Day?

MINNEAPOLIS — Our United States is a billion-dollar-a-day country.

Averaging up the predictions of leading economists indicates that "gross national product," or combined expenditures of the nation's people, business and government, will total about 365 billion dollars in 1955, or a billion for every day in the year.

American consumers will spend an average of 645 million a day for goods and services. Construction of new homes, factories, highways, etc., will average 110 million dollars a day. The federal government is spending about 160 million dollars a day this year, most of it on defense goods and services. State and local governments are spending around 75 million a day. Business investment in new equipment and inventory build-up rounds out the daily billion for 1955.

Britisher Sends Paycheck by Pigeon

THORNTON HEATH, England—Bricklayer William Bergman sends his weekly wages home to his wife by carrier pigeon. In fact, he has been doing it for 16 years, he says.

Bergman said he gets paid early Friday before starting off on his day's work. So each pay day he carries along his carrier pigeon, straps the money to the bird's leg and turns him loose to fly home.

Second Weapon

CEDAR CITY, Utah—When Daryl Shumway spotted a bobcat west of Cedar City he stopped his truck and reached for the rifle he always carries.

Shumway fired at the cat four times—and missed. Then, out of ammunition and out of patience, he picked up a rock and threw it at the animal.

The rock caught the cat between the eyes, and Shumway said he finished it off with a second rock.

Heads Lake Villa Post V. F. W.

Tony Sciacero of Lake Villa is shown receiving from Harold F. Keeling, state department chief of staff the gavel placing him again in office as commander of the Lake Villa Memorial Post, Veterans of Foreign Wars. (Russell Nickerson Photo)

Open Friday from 9 a. m. to 9 p. m.

HICKORY

Jerry Hunter and Ray Lubkeman of Antioch drove up to Waukegan, Wis., Friday night and spent the week end with friends.

Mr. and Mrs. Bert Edwards and Mr. and Mrs. Warren Edwards were dinner guests at the home of Mr. and Mrs. Robert Erwin in Waukegan Monday evening, May 16. Mr. and Mrs. Roy Hunt, their cousins from Batavia, N. Y., were visiting at the R. Erwin home.

Born to Mr. and Mrs. Raymond Baethke, a son, on Monday, May 16, in Victory Memorial hospital, Waukegan.

The Curtis Wells family attended the wedding of Miss Uldine Andersen and Gordon Wells, Jr., at Antioch Methodist church on Saturday evening, May 14.

Mr. and Mrs. William Strahan and their daughter, Mrs. John Sprechler of Waukegan visited their cousins, Mr. and Mrs. M. Hoffman at Bassett, Wis., Sunday afternoon.

Mrs. Sam Hernquist left by train on Thursday night for a two weeks visit with relatives at St. Louis, St. Clair, and Salem, Mo.

Mr. and Mrs. Will Thompson and Helen called on Harold Thompson in his house trailer at the White House Trailer Court, north of Zion, on Saturday afternoon. He recently moved there from his room in the Zion hotel.

Mr. and Mrs. Warren Welch and two daughters from Madison, Wis.,

were guests at the Will Welch home from Thursday until Sunday afternoon.

Mr. and Mrs. Emmett King accompanied Mr. and Mrs. R. C. Bishop and Mrs. Grace Turnock of Kenosha to Dousman, Wis., on Sunday afternoon where they visited their sister, Mrs. Georgia Scoville at the Masonic Home.

Hart Webb of Kenosha was a Sun-

day afternoon caller at the Curtis Wells home.

Forty-four persons attended the Rogation Day services held at the Curtis Wells farm on Sunday afternoon.

Mr. and Mrs. Bert Edwards and Doris visited the Ward Edwards family at Rockford on Sunday. In the afternoon they visited a tulip farm near there.

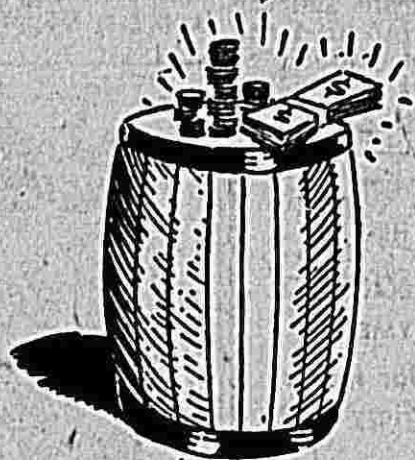

Mr. and Mrs. John Boysen from Russell were Saturday evening guests at the Wm. Richards home. Sunday evening visitors were Mr. and Mrs. Frank Farms and sons of Bristol and Mr. and Mrs. Kenneth

Lumley and family of Kenosha. Mr. and Mrs. Robert Sheehan of Waukegan visited the Jot Sheehan family Sunday evening.

Mr. and Mrs. Harold Butler and children and Mr. and Mrs. George

Butler of Waukegan were Sunday evening callers at the Curtis Wells home.

Harold Thompson of Zion was a Sunday dinner guest at the Will Thompson home.

ORDINANCE RELATING
TO DOGS.

BE IT ORDAINED BY THE
PRESIDENT AND BOARD OF
TRUSTEES OF THE VILLAGE OF
LAKE VILLA, ILLINOIS

SECTION 1: (Dogs) Every person owning, possessing, keeping or harboring any dog within the limits of the Village of Lake Villa shall annually, on the first day of May, or at such other time or times as possession is had of any unlicensed dog, pay to the Village Clerk a license fee of \$2.00 for every dog. Such dog or dogs shall be registered in the Office of the Village Clerk in a book kept for that purpose. At the time of such registration, such Clerk shall issue and deliver a metal check or tag upon which shall be stamped the letters, "L. V. D. T.", and the year for which the tax is paid, which check or tag shall by such person receiving such license be attached to said dog by a suitable collar.

SECTION 2: (Dogs without collars and tags) Every dog license as provided shall, at all times, have a collar with the metal tag above mentioned securely fastened thereto and any dog found within said village without a tag as provided shall be deemed to be a nuisance and

shall be disposed of as hereinafter provided. This Section shall not apply to any dog accompanied by its owner visiting the Village for a short time and this Section shall not be construed to mean that dogs having collars and tags be permitted to run at large; but such licensed dogs, if off the premises of the owner thereof, shall be attended by and in charge of a responsible person.

SECTION 3: (Dangerous Dogs) It is hereby declared to be a nuisance for the owner of any barking, howling, biting, vicious or dangerous dog to permit such dog to run at large, unattended, as above provided, within the limits of the Village and any person permitting such dog to run at large may be arrested and upon conviction be fined not less than \$1.00 nor more than \$25.00, and

such dog when found running at large may be impounded as hereinafter provided.

SECTION 3A: (Impounding Dogs) It shall be the duty of the Village Marshal and the Village Police to impound any and all dogs running at large whether such dogs have Village license tags or not, when such dogs are running at large contrary to the provisions of this Ordinance, and impound the same in any Village Pound that may be provided by the Village Board from time to time, and if no Village Pound is available at the time, then such dogs shall be impounded on the premises of the Orphans of the Storm, an institution providing shelter for stray dogs, located at Deerfield, Lake County, Illinois, which shall serve as the Village Pound. Upon a dog being

so impounded, the Village Marshal or the Village Police shall thereupon notify the owner of said dog so taken, if the name of the owner can be ascertained, and said owner shall be permitted to redeem the said dog within five days of such impounding by paying all license and other fees together with the sum of \$1.00 per day of the costs of impounding and keeping such dog, provided that no dog shall be redeemed unless the current license certificate and tag for said dog be first procured and shown. Should no redemption be made of any dog thus impounded,

such dog shall be destroyed at the end of the fifth day.

SECTION 4: Any person who shall violate any of the provisions of this Ordinance shall, upon conviction, be fined not less than \$1.00 nor more than \$25.00.

SECTION 5: Any and all Ordinances conflicting with this Ordinance are hereby repealed.

SECTION 6: This Ordinance shall be in full force and effect after its passage, approval and publication

as provided by law.
APPROVED:
Erwin S. Barnstable, Sr.
Village President

Attest:
C. W. Reinebeck
Village Clerk

Approved:
Bernard J. Juron

Get Your Ideal
CORN
Starter

TREAT YOUR CROP to the best starter fertilizer you can get — **ARCADIAN® 12-12-12**. Use this balanced, granular, non-bridging, concentrated plant food in the row and watch your corn get up and grow. Rich in nitrogen, rich in potash, rich in water-soluble phosphorus that young corn needs, **ARCADIAN 12-12-12** puts more grow in every corn row!

YOUR CROP TREATS YOU to big profitable yields when you feed it plenty of **ARCADIAN 12-12-12** at planting and plow-down. Thousands of Midwest corn growers are using **ARCADIAN 12-12-12**, including several corn champions. Use 150 to 200 pounds of **ARCADIAN 12-12-12** per acre in the row when you plant. No dust, no fuss, no clogging — just plenty of good plant food to push your yields up high in the profit level.

Before you buy any range, find out

Which is Faster

FLAME TYPE
5 minutes 31 seconds—still below boiling point

ELECTRIC
5 minutes 31 seconds—at boiling point

RESULTS OF RECENT IMPARTIAL RESEARCH:
Independent engineers of the R. W. Hunt Company (who made this series of tests) stated: "We ran several speed studies—comparing 3 modern flame-type ranges against 3 modern electric ranges. One electric surface unit boiled a quart of water in 5 minutes and 31 seconds. That was 56 seconds faster than the best flame-type burner tested. We made twenty-one tests in all. Results showed that the three electric ranges averaged 40 seconds faster than the three flame-type ranges." (All ranges tested were top brands.)

The answer: Nothing cooks faster than today's electric ranges!

If you have to get meals in a hurry, you know speed is important. But modern electric cooking offers more than speed.

For instance, when you cook vegetables the waterless electric way, the flavor is *all there!* And don't worry about scorching, because the electric unit heats the pan evenly.

There's no cooler way to cook than with a new electric range. Electric ovens are so well insulated they keep your kitchen up to 10 degrees cooler than flame-type.

Heard about our New Installation Plan? It can save you important money on installation of a new electric range. The Plan is available at all appliance dealers' and Commonwealth Edison or Public Service Company stores. Makes owning an electric range so reasonable there really isn't any reason to wait.

New electric ranges
low as \$2.15 a week,
complete, installed!

Navy Stenographic and Typist Positions Open

Setting up headquarters May 23 through June 4 at the Navy Recruiting Station, Post Office Building, Rockford, Miss Barbara Mayr of Milwaukee will interview applicants for civilian stenographer and typist positions in Washington, D. C. Persons possessing stenographic and typing skills and a desire to travel will have an opportunity to apply for a position with the Navy Department. Miss Mayr will interview and test from 9 a. m. to 5:30 p. m. Evening and Saturday appointments will be gladly given by calling the Navy Recruiting Station at 2-1923.

High school seniors and college students may apply now and if they qualify in all respects, a position may be reserved for them to begin at the completion of the school year. A limited number of summer positions are also available.

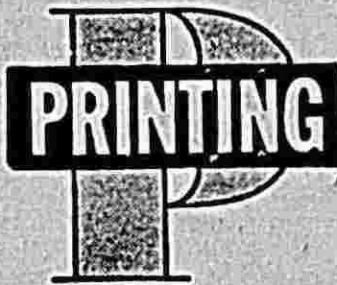

The positions dealing with personnel, ships, aeronautics, medicine and research carry beginning salaries of \$245 and \$265 monthly and offer excellent opportunities for promotion, job security and other benefits. Experience is not necessary. Applicants need not worry about housing since the Navy makes room reservations in advance of arrival and counselors assist all employees in getting permanently located.

After June 4, Miss Mayr may be contacted at the Navy Recruiting Station, Federal Building, Milwaukee, Wis.

It is next to impossible to make a man see the light if he is blind to his own interests.

Cracks in Wall, Ceiling? Here's Something That Can Be Done About It

Home owners and apartment-dwellers looking about their living quarters at this time of the year are generally plagued by one recurring problem. What to do about those ceiling or wall surfaces that have cracks, rough spots or breaks.

Although almost any able-bodied man or woman can do a fair job of wielding a paint brush or roller, it takes a professional to do a replastering job by ordinary methods. However, many persons are turn-

ing to a practical, proven way of re-surfacing bad walls and ceilings which is virtually foolproof, even when done by the inexperienced amateur.

The answer for problem walls is a recently perfected product called Plastr-Tone. Described as a homogenized, crack-resistant material Plastr-Tone is a texture paint which plasters and paints in one operation, using either roller or brush. According to the Antioch Lumber and Coal company, of Antioch, this product seals cracks, camouflages breaks and other rough spots, and is made with a rubberized alkyl base acknowledged the most flex-

ible and effective material for this use.

Plastr-Tone is applied like paint and can be used over cracked plaster, wallpaper, wallboard, plywood, building block or concrete to do a one-coat plastering and painting job which disguises cracks, hides seams and in general makes new walls out of old ones. Being homogenized, it

needs no mixing or stirring which assures color and texture uniformity over the entire wall surface. Plastr-Tone is available in sixteen ready mix colors, including the newest pastels.

Mr. and Mrs. John J. Bell returned recently to their Channel Lake Shores home after spending seven months at their winter home at Naples, Florida.

Survey Shows That Surgery Is Now Safer Than Ever

NEW YORK—Surgery is much safer now than it was only a relatively few years ago. The mortality rate incidental to virtually all types of operations, even the most radical, has been materially reduced, according to insurance company statisticians, who base their report on a study of various hospital experiences.

Surgical mortality in recent years is compared with that about a decade or more earlier for various types of major operations, including surgery for benign and malignant conditions of the digestive tract, diabetic gangrene and certain female disorders. In every one of the experiences reviewed surgical mortality was reduced by at least one half, and in several instances by more than four fifths. This record is all the more remarkable in view of the increase in the proportion of older patients.

Among the factors which have played a part in bringing about this progress are the better training of surgeons, advance in surgical techniques, the wide use of newer chemotherapeutic and antibiotic agents to control infection and improved anesthetic substances and procedures. Increasing use of blood transfusion and the practice of getting patients out of bed as soon as possible after an operation are also credited with having made major contributions to the general progress.

The improved outlook for patients with surgical conditions is strikingly illustrated by the rapid decline in the mortality from appendicitis. The death rate from appendicitis among the company's industrial policyholders dropped by three fourths in the past decade and by nine tenths in the past two decades.

Warm Winds Bring Drowning Threat

NEW YORK—The return of warm weather always brings with it the threat of drownings, which claim about 6,500 lives annually in the United States.

Male victims usually outnumber females by six to one and the highest rate from drowning is recorded among boys 15-19 years of age. Swimming accounts for about half the fatalities among these youngsters and boat accidents for an additional one-fifth.

A large number of drownings occur each year among children at ages one to nine as a result of the youngsters falling into or wading into rivers, creeks, and other bodies of water. Among the very young children a considerable portion of the fatalities occur around the home—some of them in ornamental garden pools, cesspools, septic tanks, wells and cisterns.

Authorities say drownings would be drastically reduced if people would learn to swim well and to handle themselves properly in boats. Also, greater stress should be put on the necessity to check the conditions of boats, to heed weather warnings, and to stay out of small craft if unable to swim.

Army Now Giving Jet Vaccine Injections

CHICAGO—The old joke about the "square needle" used to give vaccine injections in the Army won't be any good any more it seems, since the Army has come up with an automatic assembly-line method of giving rapid-fire mass injections.

Replacing the fearsome needle is a pistol-shaped, rubber-nosed jet injector that shoots a dose of vaccine under high pressure right through a GI's skin.

The shot takes about one second and the operator is ready for another patient.

Although the shot is not entirely painless, Army inductees upon whom it has been tried say it hurts less than a needle injection.

Coin Machine Solves Lonely Hearts Problem

LUEBECK, Germany—Finding friends in Luebeck is now a simple matter. Local "lonely hearts" can meet members of the opposite sex through a new coin machine installed in a local railway station. Two deutschmarks, (47 cents) inserted in the slot brings a card containing a photograph, physical description and other personal details on men or women longing for marriage or friendship.

The machine has different coin slots for "girls, 20 to 30," "men, 50 to 60," and other categories.

Postmen Do Read

WHITEHALL, Wis.—Henry J. Aleckson, a mailman for 28 years, has owned up to the truth—postmen do read post cards.

The worst of it, Henry said is that "most of the cards aren't very interesting."

"They generally say nothing more than 'Having a good time. Wish you were here,'" said Aleckson, who has covered some 337,000 miles in buggies and autos over rural roads.

LAKE VILLA

Miss Janet Bunkelman, daughter of Mr. and Mrs. Lester Bunkelman who is employed at Fond du Lac, Wis., was guest of honor at a bridal shower held at the recreation room of the fire station on Wednesday evening, May 11, and 25 or more of her Lake Villa friends came to enjoy the evening with her and brought many beautiful and useful gifts for use in her home after her marriage on May 21. Her grandmother from Fond du Lac accompanied her and her mother returned to Fond du Lac with her to attend another shower in her honor there on Thursday evening. Mrs. Bunkelman returned home on Friday.

Beginning on Sunday, June 5, two services of worship, one at 8:30 and another at 11 a. m. will be held at the Community church. You are very welcome.

The small daughter of Mr. and Mrs. Clifford Bartlett, Susan Lynne, was baptized at the worship service of the Community church last Sunday morning.

Several members of the Woman's Society of Christian Service attended the annual meeting of the groups of the District at Elgin on Friday this week.

On Monday, May 23, the new members of the official board of the church will meet with this year's board for pot luck dinner, and to organize the various commissions and committees for the coming year, and the finance commission will meet at the church on Wednesday, May 18 at 8 p. m. to make plans for the every member canvass.

Mr. and Mrs. Russell Nickerson, Mr. and Mrs. Edward Langbein and Tony Sciacero represented Lake Villa Memorial Post 4308 at a Fifth district meeting at Woodstock last Sunday afternoon. Election of officers was held and Tony Sciacero was elected as quartermaster for the district. Poppy Days for the local group will be held on May 20 and 21.

Mrs. Frank Emerson visited the Augustana hospital on Monday last week and did volunteer nursing service. On Tuesday she was escorted to the East as Senior Regent at the

Moose lodge in Milwaukee.

On Mother's Day Mrs. F. Emerson held open house at her nursing home at Fox Lake and on Wednesday evening last week was honored guest at the Logan Square lodge in Chicago.

The Allendale School for Boys was remembered by the late O. W. Lehmann in his will and a cottage will be built at the school in his memory. It will have room for ten boys and will relieve the crowded conditions in other cottages. A new athletic field is being built, sponsored by the Optimist club of Wilmette which helps the boys in many ways. Clare Appleby is director of the school.

Mr. and Mrs. Phillip Larsen of Royal Oaks, Mich., called on Mrs. Larsen's aunt, Mrs. Albert Kapple at her home last Friday.

Mrs. J. G. Poulton of Gurnee was guest of Mrs. C. B. Hamlin last Friday.

The graduation activities of the Lake Villa Consolidated grade school

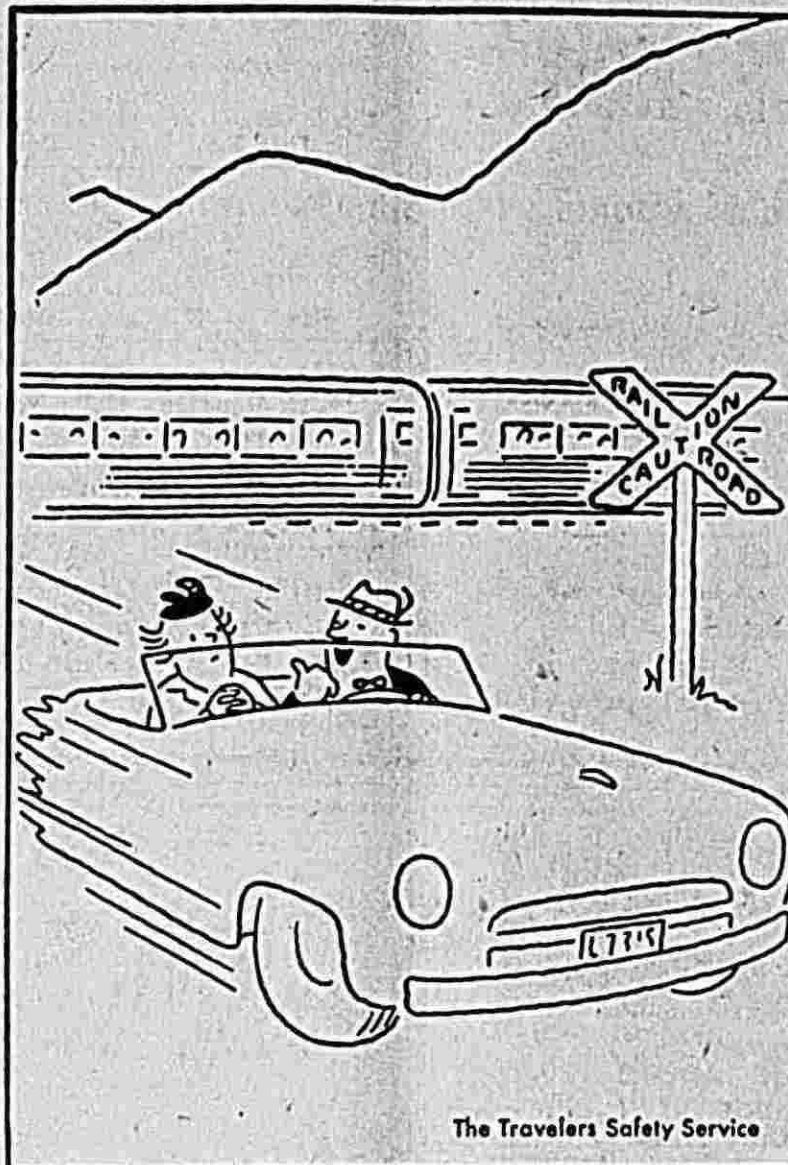

include a three act mystery-comedy, "Finders Creepers," to be presented on Wednesday and Thursday evenings, May 18 and 19 at 8 o'clock at the school gym. The proceeds will help to furnish athletic equipment for the school.

Mr. and Mrs. James Connell have returned from their wedding trip to New York and are at home to friends at their home at Sand Lake.

"Quiet bunch in the back seat, eh?"

Hottest news in Hardtops is the 4-Door Riviera

Why take anything less than the sensation of the year?

WHEN you learn what's been done in the automobile pictured here, you can easily see why this beauty is winning rave notices coast to coast.

Buick engineers took the hardtop body design that has been growing tremendously in popularity over the past six years—and gave it four doors instead of two.

Simple? Sure—to all outward appearances.

But it took a brand-new kind of body with wholly new structural principles to do it—to bring this long-awaited new kind of automobile to the public in volume numbers and at popular prices.

For this is a true hardtop—with

the sleek and racy look of a Convertible, because there are no center posts in the window areas on either side.

And now it has front doors for the front-seat passengers—and rear doors for the rear-seat passengers—plus room increased to the size of a full Sedan.

(It took some special kind of engineering magic, you can be sure, to hinge all four doors at their forward edges for greater safety, and more ease of entering and exiting.)

So it looks like Buick has scooped the industry again—and come up with the hottest news in hardtops since Buick originated the first two-door hardtop six years ago.

HOTTEST NEWS IN AUTOMATIC DRIVES IS VARIABLE PITCH DYNAFLOW

It's the world's first transmission with the switch-pitch principle of the modern airplane's variable pitch propeller. You get better gas mileage in cruising. You get the pitch just by pressing the gas pedal—and get lightning-like response for getaway, or for a sudden safety-surge of accelerating power. It's the performance thrill of the year. Standard on ROADMASTER, optional on other Series at no more extra cost than earlier versions of this wonder drive.

And you can have it now—in the low-price SPECIAL or the supremely-powered CENTURY—and either one at the modest extra cost of a 4-door model over a 2-door.

Drop in on us today—this week, for sure—and see how easily and how quickly one can be yours.

Ethical-Religious Themes Dominant In Best Sellers

WASHINGTON — One hundred and three years ago "Uncle Tom's Cabin" came off the presses to set the pace for a long list of ethical-religious books ranking as American best-sellers.

The vast appeal of "Uncle Tom" (3,000,000 copies distributed in the United States) mirrors America's fondness for books of a religious or ethical nature.

For impact on the thinking of a nation, few novels equal the work of Harriet Beecher Stowe, a Maine clergyman's wife. Mrs. Stowe modeled Uncle Tom after a Negro freedman she met in Boston. While in church she conceived Uncle Tom's death and the same day she started writing. The story was serialized in a Washington weekly, but publishers at first refused it in book form. Finally one company offered the choice of two contracts: a 50-50 share of profits and costs, or a straight 10 per cent royalty. Mrs. Stowe chose the royalty and thereby passed up a fortune.

In the first year alone it took eight presses operating day and night to meet the demand.

Today's best seller list is loaded with books dealing with religious and ethical problems. Among the last hundred years' top best sellers (2,000,000 or more copies) books of a religious theme stand out: Lew Wallace's "Ben-Hur" (1880); Charles M. Sheldon's "In His Steps" (1897); Jesse Lyman Hurlbut's "The Story of the Bible" (1904) and Lloyd C. Douglas' "The Robe" (1942).

Among books estimated at over 2,500,000 copies are Shakespeare's "Plays," Scott's "Ivanhoe"; Thomas Fleet's "Mother Goose"; "Uncle Tom," "Ben-Hur," Dale Carnegie's "How to Win Friends and Influence People," and Margaret Mitchell's "Gone With the Wind."

Silver Service Depicts Gold Rush

BERKELEY, Calif.—A priceless silver service fashioned by California silversmiths in the days of the gold-rush is on display on the Berkeley campus of the University of California.

Miners panning for gold, stagecoaches, bears, Stutter's mill and fort, and many other scenes reminiscent of early California are etched and carved on the 26 goblets, trays, soup tureens, gravy bowls and tea pots.

Sealed in an air-tight case, the silver pieces have remained sparkling since they were given to the University in 1935.

The silver service was once the property of James E. Birch, an early California settler who made a fortune running a stagecoach line that covered 1200 miles every day. Following his California success, Birch returned to his native New England and married.

Birch came back to California to settle his affairs and ship his wealth, in the form of gold bars, back to his home in the East. He followed on the palatial steamer "Central America" for New York. It was that ship's last voyage, for she went down at sea, taking Birch and many others with her.

Little Padlock Locks Electrical Plugs

MILWAUKEE—Safety of children in the home has been given a good boost—this time by a small padlock.

The lock is not to bar the door of the kiddies' rooms. Instead, it is designed to help safeguard children from the dangers of electrical current. The padlock, no bigger than a man's thumbnail, can be used to "lock out" the electrical plugs of lamps, power tools, and appliances when they are not in use.

Called the "Cub" the tiny padlock may be locked through the hole in either prong of electrical plugs to keep children from inserting them into outlets.

The padlocks can also be used for locking zippers, brief cases, golf bags, mail boxes, trunks, meters and telephones.

Personality Continues To Undergo Changes

LOS ANGELES—Personality is not rigid but can change as one encounters new experience of different environments, according to Dr. Julian Rotter, psychology professor of the University of California at Los Angeles.

Rotter explained that, contrary to popular conception that personality is molded by the time a child is 6, it may change after he enters school because of new experiences in the different surroundings.

Votes for Marilyn

TOKYO—Some Japanese voters apparently are interested in improving the beauty standards of their House of Representatives.

Officials said that several votes were cast for Marilyn Monroe in the recent election.

MILLBURN

Regular services at Millburn Congregational church May 22 include Sunday School at 9:45 a. m. and church services at 11 a. m. A Sunday of Concern for the Ministry will be observed at the morning service. This is part of the Centennial Celebration of the Chicago Theological Seminary. A representative of the Seminary will be present at this service. An offering will be taken for the Seminary.

Rev. L. H. Messersmith conducted the morning service at Ivanhoe Congregational church last Sunday morning at 10 o'clock.

Fourteen young people of the Pilgrim Fellowship enjoyed a picnic at Petrifying Springs, Sunday afternoon.

Mr. and Mrs. Robert January announced the arrival of a daughter, Kathryn Jeannine, on May 13.

Mr. and Mrs. Harley Clark spent Friday evening at the James Bonner home in Kansasville, Wis. Barbara Bonner returned with them after spending a few days with her grandparents.

A very pretty wedding was solemnized at Millburn Congregational church Saturday evening when Miss Anne Schwicht, daughter of Mr. and Mrs. Louis Schwicht was united in marriage to Mr. Fritz Baumann by the Rev. Mr. L. H. Messersmith. The young couple are spending their honeymoon at Yellowstone Park.

Ten ladies were present at the Devotional Study Group of Ladies' Aid which held their first meeting at the home of Mrs. C. P. Weber on Thursday morning. These meetings are open for anyone wishing to join this group which meets every other Thursday from 9 until 11 o'clock a. m. The next meeting will be at the home of Mrs. Verlon Groves at Druce Lake, May 26.

Mr. and Mrs. Kenneth Leable of Gurnee called at the Eddie Hoffman home Saturday evening.

Mr. and Mrs. Fred Hughes and Mr. Frank Grant of Racine were supper guests at the Eddie Hoffman home Saturday.

Mr. and Mrs. John Edwards and family and Miss Marian Edwards of Libertyville were supper guests at the Frank Edwards home, Sunday.

Mr. and Mrs. Clarence Hauser of Paris Corners and Mr. and Mrs. Orville Hairrell, Jr., and family of Waukegan spent Sunday afternoon and evening at the Frank Hauser home.

Mrs. Robert Erwin and Mrs. Alice Boyce of Waukegan and Mrs. Logan Lundgren of Barrington were callers at the Frank Edwards home Sunday afternoon.

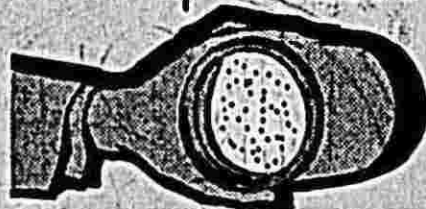

Mr. and Mrs. George Butler spent Saturday and Sunday at Holland, Mich., visiting the tulip gardens.

Mr. and Mrs. Albert Smith and daughter, Helen, Mrs. Myrtle Savage and Miss Josie Mann attended the wedding of Miss Uldine Anderson and Gordon Wells, Jr., at the Antioch Methodist church Saturday evening.

Mr. and Mrs. Frank Edwards were dinner guests at the Robert Erwin home in Waukegan Monday evening.

Couple Maintain Isolated Lodge On Canyon Rim

OMAHA—The nearest neighbors to the cabin of Louis and Violet Hills are one mile away—straight down—but they can still lay claim to the title of America's most isolated household.

From October to May, the Hills are the only residents at snowbound Bright Angel Point on the North rim of the Grand Canyon where its their job to maintain the lodge and facilities of the Utah Parks Company. To borrow a cup of sugar, Mrs. Hills has a choice between snowshoeing 44 miles northward to Jacob Lake, Ariz., or taking a long step down the mile deep chasm to Phantom Ranch on the banks of the Colorado.

The Hills reside in a log cabin, elevation 8,500 feet, where they read in the evening by gas lantern and cook and keep warm by wood-burning stove. By day they keep warm and happy shoveling snow from roof tops, snowshoeing from cabin to cabin, and handfeeding the rare, white-tailed Kalbabs squirrels.

In May, their peaceful routine ends with the influx of the first of the 180 employees and estimated 45,000 vacationists who by summer's end will have viewed awesome Grand Canyon from the north rim.

Eyes Develop in Preschool Years

NEW YORK—Human eyes go through their greatest period of development during the preschool years and it's then they are in a plastic state and are most vulnerable. Permanent damage can result if they're taxed beyond their strength at that time.

It usually isn't easy to detect the symptoms of visual trouble in a preschool child. He will rarely complain, because he doesn't know what should be expected of his eyesight.

A picture of the visual troubles most apt to be found in young children was evolved in a recent study of 100 cases of Kindergarten pupils. Examination of the children's eyesight was prompted in 68 cases by the school nurse, in 15 cases by the family doctor, in eight cases by the eyesight specialist because of an hereditary tendency, and in only nine cases by the patients' observation of symptoms indicating poor vision.

Among factors which led to examination were crossed eyes, sties, watering eyes, habits like holding books too close, rubbing the eyes frequently, frowning, closing one eye, tilting the head and excessive blinking.

If You're Healthy, Coffee Not Harmful

CHICAGO — Drinking 20 to 30 cups of coffee a day probably wouldn't harm you — unless you were not completely healthy to begin with.

Two consultants gave this opinion recently in a prominent medical journal.

One consultant said caffeine in coffee may cause nervousness, tremor, flashes of light or hearing difficulty, insomnia, headaches and a variety of minor difficulties. But these "ordinarily are not serious and disappear promptly if the use of coffee is stopped." In persons with organic disease such as heart, nerve or intestinal disorders, he said the effect could be harmful and the excessive use of coffee should be avoided.

The second consultant said caffeine and other substances in coffee certainly could be harmful to a peptic ulcer patient, and may cause some heart-circulation difficulties and even loss of weight (from increases in work output under the influence of caffeine). But he said anyone who has to ask his physician whether 20 or 30 cups of coffee are hurting him must not be experiencing any ill-effects.

Offset Saves Life Of Window Washer

CINCINNATI—A window washer who fell from the 17th floor of the Carew Towers owes his life to a 6-foot offset on the floor below.

Eugene Ross, 24, escaped with a foot fracture, a cut on his chin, and shock.

Harold Roth, operator of an insurance agency in the building, said he heard a thump outside and then "there was an arm coming up over the window sill."

Roth said he and his son Richard helped Ross inside. The first thing Ross did was ask for a cigarette.

Cause for Separation

MINEOLA, N. Y.—Mrs. Janet Nieto, 25, recently filed for separation.

She said the only word she had about her husband, Robert, 25, since he left home two months before came when he sent a friend around to pick up his roller skates.

Reunion of WAVES To Be Held in Miami

MIAMI, FLA.—WAVES, active, inactive and retired from all parts of the nation will gather at the Hotel Di Lido here July 29, 30, and 31 to participate in the 13th Annual Reunion of the women "sailors."

Reunion chairman, Lt. Cdr. Mary Wood Malone, USNR (Ret.), with headquarters at 893 N. E. 82nd st., Miami 38, Fla., is anxious to hear from the thousands of former WAVES who she describes as the "Lots Legion." Only 17,000 of the 150,000 women who have served in the WAVES can now be located from Navy records.

A full three days of activity is promised those attending the re-

union, which will open with a reception honoring Navy Captain Louise K. Wilde, Assistant Chief of Navy Personnel for Women, and Navy Lt. Cdr. Eleanor M. Casey, Assistant (W), 6th Naval District, followed by a buffet supper at the Di Lido swimming pool.

On Saturday, July 30, Capt. Wilde will speak on the current status of women in the Navy at a noon luncheon. The afternoon will be devoted to cruises on Biscayne Bay and bus sightseeing trips.

The anniversary dinner will be at the Di Lido at 7 p. m., for which a speaker will be designated by the Navy Department. Capt. Wilde will cut the 13th birthday cake.

Church services Sunday will be followed by a "splash" party at the di Lido pool.

Man has one consolation—he can avoid a lot of fool taxes he has been imposing on himself.

No nation has better citizens than the parents who teach their children how to pray.

THE BEL-AIRE BEAUTY SALON HAS BEEN IN ANTIOCH 1 YEAR—APRIL 15

To show our appreciation for your patronage we want to offer you a very special \$25.00 Cold Wave for \$10.00 complete. You have your choice of The Halliwell, Willat, Goddess, or Gabrielle Waves.

Call early for your appointment.

Due to the tremendous response to our Anniversary Special we will continue this offer two more weeks so we will be able to accommodate all our customers who wish to get their spring waves now.
